

25X1

Copy # 1

12 July 1977

NOTE FOR: The Director

Mr. Walters of the House Appropriations Committee's Studies and Investigation Team recently returned from [] where information on the activities of two officers handling the [] operation was, by prior agreement, withheld from him. He recommended to [] that Chairman Mahon be briefed, and since returning he has inquired whether this action has been taken. 25X1 25X1 25X1

You will recall that the President severely restricted the information on this operation which can be passed to Congress. You will no doubt want to take this up with the President, but one possible way to handle it is for you to discuss this matter with Chairman Mahon along the same lines that you used with Senator Inouye and attempt to obtain Mahon's understanding. Attached is an excerpt from the transcript of your discussion of this subject with Senator Inouye and the SSCI on April 18.

[]
